

RAHUL SONI

Full Stack Developer (React · Node.js · MongoDB)

Jaipur, Rajasthan, India | +91-9024141779 | rahulsoni66676@gmail.com
github.com/rahulsoni070 | linkedin.com/in/rahulsoni0707

PROFESSIONAL SUMMARY

Final-year Computer Science student and full-stack (MERN) developer who has built and deployed two complete web applications over the past eight months — a live e-commerce store and a lead-management CRM with JWT authentication and a reporting dashboard. Comfortable designing REST APIs with Node.js and Express, modeling data in MongoDB, and building responsive React interfaces. Seeking a full-stack or backend developer role where I can keep shipping production features.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, C

Frontend: React.js, HTML5, CSS3, Responsive UI Design, REST API Integration

Backend: Node.js, Express.js, RESTful API Design, MVC Architecture, JWT Authentication

Database: MongoDB, Mongoose (Schema Design, CRUD)

Tools & Practices: Git, GitHub, Vercel, Postman, Agile/Scrum, Data Structures & Algorithms

PROJECTS

ShopEasy — Full Stack E-Commerce Application

Jan 2026 – Mar 2026

React.js, Node.js, Express.js, MongoDB, Mongoose

- Built and deployed a full-stack e-commerce platform with product search, category and rating filters, and price sorting across the catalog.
- Developed product detail pages, shopping cart, wishlist, and checkout flows, persisting state on the client so items survive page reloads.
- Structured a REST API for products, categories, cart, and orders following an MVC pattern, and deployed the full build to Vercel for live public access.

Anvaya CRM — Full Stack Lead Management Application

Jun 2026 – Aug 2026

React.js, Node.js, Express.js, MongoDB, Mongoose

- Built a CRM with nine modules for lead tracking, sales-agent management, and pipeline reporting, developed end-to-end on the MERN stack.
- Implemented JWT authentication with bcrypt password hashing and admin/user role-based access to protect routes.
- Designed REST APIs for full CRUD on leads and agents, including status updates, agent assignment, and threaded comments with author and timestamp.
- Built a dashboard with live lead-status counts, multi-criteria filtering, dynamic sorting, and pie/bar chart reports.

TECH WRITINGS

- “How I Added Secure Login to My CRM App — bcrypt, JWT & Auto-Expiring Tokens (Explained Simply)” — Hashnode rahulsoni070.hashnode.dev/how-i-added-secure-login-to-my-crm-app

EDUCATION

B.Tech, Computer Science Engineering — JECRC University, Jaipur

2023 – 2027

ACHIEVEMENTS & ACTIVITIES

- Participant, Smart India Hackathon (SIH) 2024 — national-level problem-solving and innovation competition.
- Solve Data Structures & Algorithms problems regularly to strengthen problem-solving and coding fundamentals.
- Publish technical writing on projects I build, explaining real implementation decisions.
